

REMDAL

SALT & ICE MELTS

ROCK SALT - SALT

- Cost-effective, commercial-grade performance.
- Formulated for fast, efficient melting in extreme cold.
- Ideal for paved parking lots and concrete surfaces where reliable vehicle traction is critical.

[SAFETY DATAPAGE AVAILABLE -](#)

GET-A-GRIP - ICE MELT

- A potassium chloride and aggregate blend that delivers both melting power and added traction.
- Ideal for pedestrian walkways, dog-walking areas, and any surface where instant grip is essential.
- Contains aggregate, so some cleanup may be needed — but it provides immediate, reliable traction.

ENVIROMELT - ICE MELT

- Eco-friendly formula using upcycled starfish.
- Odor-free, low-maintenance, and gentle on surfaces.
- Effective to -30°C , outperforming many conventional de-icers.
- Safer for plants, pets, and people.

ECO SAFE - ICE MELT

- Made from refined potassium-based pellets, completely aggregate-free — the cleanest ice-melt option with zero mess tracked indoors.
- Ideal for entrances and high-traffic transition areas where you want powerful de-icing without gritty residue.
- Safe for use on concrete, asphalt, pavers, and stone — pet friendly harmless to lawns and gardens, though not intended for them.
